Cabinet Construction

Our cabinet doors are created with the highest quality Birch - a strong and durable hardwood whose beautiful features make it a perfect wood type for modern furniture.

Our cabinet carcasses are constructed with all-birch plywood with wood veneer. No formaldehyde is added during our plywood manufacturing process. Our sides, bottoms, and shelves are 3/4" plywood, reinforced through a 3/4" plywood hanging rail.

Our drawer boxes are held together through dovetail joint construction and all drawers come with under-mounted, full-extension, soft-closing slides.
